Proudest Moment of All,

Perhaps the proudest moment of the whole day is when, at the conclusion of the last prayer, when all about her are exchanging congratulations upon the great fast being happily ended, the very rabbi himself, the chief man of the congregation, comes up and takes her by the hands and says: "Sister, your candle shines forth like your great piety. May you have health and strength to make the sacred candles for us next year!"

To which she replies fervently, "And may the Almighty grant, dear brother, that you be here to light them next year.' All odds and ends of the candles which are left unconsumed are carefully gathered up and put away, to be melted again for future Yom Kippur use,

The pious brethren, as well as the sisters, however, can share in the great mitzvah of peacemaking, or reconciling all who during the year have been a variance from any cause whatsoever. The blessings vouchsafed the peacemaker at any time are magnificent at the atonement season, and there is a generous rivalry to see who can appear at the synagogue door before the Kol Nidre services begin, with the longest list of patched-up estrangements to his or her

Glad Wife Went Off on a Vacation.

He accompanied his wife to the station to put her on the train. She was bound West for a month's visit with her folks, says the New York Sun.

It was to be their first separation during their five years of married life. He had been rather looking forward to it

"You don't seem to be greatly grieved that I am to be away from you for a whole long month," she had said to him on the evening before. "Won't you miss me-just a little?"

"Oh, 'course I'll miss you," he had replied, in an off-hand way, suppressing a yawn. "But married folks ought to be away from each other once in a while. Does 'em both good."

Then he added as a sort of soothing afterthought: you get back-sure thing, I will," and he bestowed a careless sort of duty-bound

On the next evening he went to a beer garden, still trying to warm up that bachelor feeling. But it was no go.
"Same old crowd," he said to himself, watching the people around the tables.
